ii) (-) indicates amount to be received by Utility

iii) Intrastate Congestion Charge is determined with reference to drawal schedule and actual drawal of distribution licensees (BRPL, BYPL and NDPL) and deemed licensees (NDMC & MES) at their periphery whereas that for generating stations in Delhi, it is determined with reference to ex-bus generation schedule and actual ex-bus generation. Interstate Congestion Charge is determined with reference to drawal schedule and actual drawal of the State at their periphery and for the inter state generating stations (ISGSs), the congestion charges is determined with reference to scheduled ex-bus generation and actual ex-bus generation.

The congestion charges references of constituents are different. To maintain zero balance account at Intrastate level, the same methodology which is used for UI settlement has been adopted.
